

OPERATIONAL AI

Practical AI for yard operations, with your own key.

Quotes from a material list, product content, and truck loading, on the AI key you choose.

MATERIAL LIST TO PRICED QUOTE

01
The list
A photo of a contractor's material list or a job site note.

02
Match
Each line matched to your own catalog.

03
Price
The contractor's prices and your margin targets applied.

04
Quote
A quote ready for review at the counter.

Plan takeoff from drawings comes through the Zero Gravity Takeoff integration.

CATALOG AND PRODUCT CONTENT

01
Product data
The manufacturer's specs and dimensions.

02
Audience
Written for contractors or for retail.

03
Descriptions
Product descriptions and sell sheet summaries.

04
Images
Product images generated through your key.

YOUR OWN KEY

Models	Anthropic directly, or other models through OpenRouter.
Your data	AI runs only on the key you enter and test, under your provider's terms.
Key security	The key is sealed in the vault at rest.

PRICES NEAR YOU

With FB Connect, compare your shelf prices with the big box stores near you, as in the example on gablelbm.com.

TRUCK LOADING

01
Order lines
Takes the confirmed delivery lines and their dimensions.

02
Trucks
Picks the trucks and the order of the stops.

03
Axles
Packs each truck last stop first and checks every axle's weight.

04
Back to dispatch
Writes the routes and packing manifests back to the dispatch board.
