

Everything a dealer runs, in one system that is yours.

Counter, yard, trucks, job site and books in one system. Free for an independent dealer under a commons licence, source included.

ONE ORDER, START TO FINISH

01	02	03	04	05
Counter	**Yard**	**Trucks**	**Job site**	**Books**
Sold on account, credit checked.	The unit pulled from the rack.	Loaded by stop, proof at the door.	The frame goes up as quoted.	Posted the same second.

BUILT FOR WHAT A YARD SELLS

Dimensional lumber	By the unit, pack or piece, with board foot tally.
Sheet goods and panels	Contractor price levels and market cost updates.
Many yards	Stock by yard and by bin, seen from every branch.
Trade accounts	Credit terms, aged receivables and job billing.
Buying	Reorder suggestions, purchase orders in one click, and receiving at the yard.

WHERE IT RUNS

Your choice	Your server, your cloud, or hosted for you.
One system	One thing to run and one database to back up.
Connections	FB Connect included; no fee for each connection.

WHO HOLDS IT

Owned by operators. Cannot be sold.

Gable is community sourced and commons protected from commercial capture; a panel of independent dealers holds the veto. FutureBuild maintains it and provides enterprise services. No private equity, no venture capital.

THE LICENCE IN ONE LINE

No charge, forever, and your private changes stay private. Owning the core software that runs the business is the foundation a dealer needs to be ready for what comes next.
